

8th Mid-Atlantic Soft Matter Workshop

Friday, December 9, 2011, 8:50 am to 5:40 pm, Building 235, Room K04

Invited Speakers:

Klaus Gawrisch

National Institutes of Health

Yilong Han

Hong Kong University of Science and Technology

Magdaleno Medina-Noyola

Autonomous University of San Luis Potosi

Thomas H. Epps

University of Delaware

Gil Toombes

NIST/University of Delaware

NIST Center for Neutron Research

National Institute of Standards and Technology

Organizing Committee:

Yun Liu

NIST/ University of Delaware

yunliu@nist.gov

Paul Butler

NIST

butler@nist.gov

Daniel Blair

Georgetown University

blair@physics.georgetown.edu

The Mid-Atlantic Soft Matter Workshop brings together researchers working on the science of soft matter, such as polymers, complex fluids, and biomaterials, for an informal meeting to exchange ideas and foster collaborations. There will be a mix of invited talks, brief contributed sound bites, and unstructured time. For more details and to register, please visit <http://maim.physics.georgetown.edu/>
